

Observing and Inferring

Procedure

1. Look at the **illustration** displayed with this MiniLAB in your textbook. It is a part of a larger illustration.
2. Record in the following space everything you observe about the illustration.

Analysis

1. Infer what might be happening in the illustration.

2. Compare your inferences with the illustration on the left-hand page of the Chapter Review in your textbook. How close were your inferences to the actual illustration?
